Project items

Repository	Issue	Title	Priority score	URL
moby/moby	#25982	Unable to react to graceful shutdown of (Windows) container	220.0	https://github.com/moby/moby/issues/25982
moby/moby	#39191	Windows Server 2019 publish ports in swarm not working	83.0	https://github.com/moby/moby/issues/39191
moby/moby	#50369	Docker for windows doesn’t work on BitLocker encrypted C:\ drives, since version 27.5 (error: FSCTL_EXTEND_VOLUME, The media is write protected)	29.0	https://github.com/moby/moby/issues/50369
moby/moby	#43304	Building from source on Windows?	29.0	https://github.com/moby/moby/issues/43304
moby/moby	#50402	flaky test: ‘TestExecResize‘ on Windows	23.0	https://github.com/moby/moby/issues/50402
moby/moby	#48201	TCP connections stall in Docker containers in WSL2 using mirrored networking mode	21.0	https://github.com/moby/moby/issues/48201
moby/moby	#42743	Flaky test: TestBuildWCOWSandboxSize (insufficient disk space?)	19.0	https://github.com/moby/moby/issues/42743
moby/moby	#49334	Creating container on Windows Server 2022 fails with transparent network - EOF: 125	19.0	https://github.com/moby/moby/issues/49334
moby/buildkit	#4282	dockerfile: carriage return conflicting with heredocs	35.0	https://github.com/moby/buildkit/issues/4282
moby/buildkit	#5678	WCOW: need support for ‘llb.AddMount‘ and ‘RUN --mount‘ for WCOW	5.0	https://github.com/moby/buildkit/issues/5678
moby/buildkit	#5603	WCOW: RUN with bind/cache mounts	Not set	https://github.com/moby/buildkit/issues/5603
moby/buildkit	#4837	Support ‘RUN --mount=type=ssh‘ for Windows containers	Not set	https://github.com/moby/buildkit/issues/4837
moby/buildkit	#5273	Windows docker container buildctl does not allow mounting secrets. It fails mounting to linux tmpfs location	Not set	https://github.com/moby/buildkit/issues/5273
docker/for-win	#12944	High memory usage from VMMEM with docker desktop windows x64 V4.12.0	328.0	https://github.com/docker/for-win/issues/12944
docker/for-win	#14022	Docker Desktop - WSL update failed	298.0	https://github.com/docker/for-win/issues/14022
docker/for-win	#10247	"load metadata for" during docker pull hangs for about 10-20 seconds	265.0	https://github.com/docker/for-win/issues/10247

Repository	Issue	Title	Priority score	URL
docker/for-win	#12576	Endless "Docker desktop stopping"	234.0	https://github.com/docker/for-win/issues/12576
docker/for-win	#12968	WSL2-Vmmem with Docker desktop will use 100% CPU for no reason after PC wakes up from sleep	227.0	https://github.com/docker/for-win/issues/12968
docker/for-win	#14187	Docker Desktop update to 4.32.0: Running wsl distro proxy in Ubuntu-22.04 distro: exit status 1	203.0	https://github.com/docker/for-win/issues/14187
docker/for-win	#1018	Serial port unavailable under Windows even with --privileged flag	202.0	https://github.com/docker/for-win/issues/1018
docker/for-win	#13663	initializing Docker API Proxy: open \\.\pipe\docker_engine: Access is denied.	183.0	https://github.com/docker/for-win/issues/13663
docker/for-win	#13242	Docker desktop will exit(0) docker container immediately after running.	177.0	https://github.com/docker/for-win/issues/13242
docker/for-win	#13638	Docker Engine Failed to Start : Getting Error "waiting for docker daemon: running wsl-bootstrap: WSL engine terminated abruptly"	163.0	https://github.com/docker/for-win/issues/13638
kubernetes/enhancements	#2371	cAdvisor-less, CRI-full Container and Pod Stats	190.0	https://github.com/kubernetes/enhancements/issues/2371
kubernetes/enhancements	#4216	Support image pull per runtime class	118.0	https://github.com/kubernetes/enhancements/issues/4216
kubernetes/enhancements	#4885	Windows CPU and Memory Affinity	94.0	https://github.com/kubernetes/enhancements/issues/4885
kubernetes/enhancements	#6303	KEP: In-place pod vertical scaling (container resize) on Windows	16.0	https://github.com/kubernetes/enhancements/issues/6303
containerd/containerd	#12888	[Feature] Native log rotation support for --log-file on Windows service	9.0	https://github.com/containerd/containerd/issues/12888
containerd/nerdctl	#4237	[LOGS]: on windows, logs do not show up / are extremely slow?	14.0	https://github.com/containerd/nerdctl/issues/4237
containerd/nerdctl	#519	Add Windows Hyperv support	9.0	https://github.com/containerd/nerdctl/issues/519
moby/moby	#53063	Windows: containerd image store can’t use the CimFS snapshotter ? dockerd doesn’t configure the differ order and offers no passthrough	20.0	https://github.com/moby/moby/issues/53063
microsoft/Windows-Containers	#257	Self build base OS images	211.0	https://github.com/microsoft/Windows-Containers/issues/257
microsoft/Windows-Containers	#311	Windows Containers Observability	178.0	https://github.com/microsoft/Windows-Containers/issues/311
Azure/AKS	#5919	[BUG] PIS builds fail on private-registry Windows images: 600s pis-image-cache timeout is too short	98.0	https://github.com/Azure/AKS/issues/5919

Repository	Issue	Title	Priority score	URL
kubernetes/enhancements	#2258	Node log query	172.0	https://github.com/kubernetes/enhancements/issues/2258
kubernetes/enhancements	#4802	Windows Node Graceful Shutdown	129.0	https://github.com/kubernetes/enhancements/issues/4802
containerd/containerd	#11366	Manifest Priority when pulling windows images with Windows Server 2025	46.0	https://github.com/containerd/containerd/issues/11366
containerd/containerd	#11903	windows support for oci volume sources	12.0	https://github.com/containerd/containerd/issues/11903
containerd/containerd	#12225	Windows: Enable host process container to run with hostnetwork=false	12.0	https://github.com/containerd/containerd/issues/12225
containerd/nerdctl	#28	Windows support	57.0	https://github.com/containerd/nerdctl/issues/28
containerd/nerdctl	#4005	windows 2025 container exec problems	22.0	https://github.com/containerd/nerdctl/issues/4005
containerd/nerdctl	#4899	‘nerdctl -d -t‘ detached containers immediately exit with code 3221225786 (0xc000013a) on Windows	13.0	https://github.com/containerd/nerdctl/issues/4899
moby/moby	#38387	Add CpuCount and CpuPercent To Build	42.0	https://github.com/moby/moby/issues/38387
microsoft/Windows-Containers	#34	As a Developer I want to be able to build Windows Containers with BuildKit	281.0	https://github.com/microsoft/Windows-Containers/issues/34
microsoft/Windows-Containers	#140	Can’t start any two docker-compose environments after update to Windows 20H2	249.0	https://github.com/microsoft/Windows-Containers/issues/140
microsoft/Windows-Containers	#516	Container networking on Kubernetes broken after Server 2022 July 2024 / KB5040437 (OS Build 20348.2582) update	246.0	https://github.com/microsoft/Windows-Containers/issues/516
microsoft/Windows-Containers	#390	Is it possible to create another user with the same permissions as containeruser	194.0	https://github.com/microsoft/Windows-Containers/issues/390
microsoft/Windows-Containers	#485	Requesting elaboration for HCN error 2151350293 (0x803b0015)	167.0	https://github.com/microsoft/Windows-Containers/issues/485
microsoft/Windows-Containers	#177	Are throttle events logged?	167.0	https://github.com/microsoft/Windows-Containers/issues/177
microsoft/Windows-Containers	#541	CCG Custom Plugin Returning Error (The remote procedure call failed.)	166.0	https://github.com/microsoft/Windows-Containers/issues/541
microsoft/windows-container-tools	#84	Log Monitor Feedback and Future Features	146.0	https://github.com/microsoft/windows-container-tools/issues/84
microsoft/windows-container-tools	#125	Getting ERROR: Error in log file monitor. Failed to query file information [BUG]	137.0	https://github.com/microsoft/windows-container-tools/issues/125
microsoft/windows-container-tools	#169	STDOUT propagation is broken after termination signal	122.0	https://github.com/microsoft/windows-container-tools/issues/169

Repository	Issue	Title	Priority score	URL
microsoft/windows-container-tools	#216	[BUG] LogMonitor.exe being flagged for BA2008 for missing ControlFlowGuard in BinSkim	115.0	https://github.com/microsoft/windows-container-tools/issues/216
microsoft/windows-container-tools	#219	[BUG] LogMonitor keeps executing CreateFile Operations for deleted files, skyrocketing the cost of running this in AKS + Azure File Shares	115.0	https://github.com/microsoft/windows-container-tools/issues/219
Azure/AKS	#4028	[BUG] Windows node reports less CPU usage than its pods	141.0	https://github.com/Azure/AKS/issues/4028
kubernetes/kubernetes	#110665	kubectl.exe not code-signed	56.0	https://github.com/kubernetes/kubernetes/issues/110665
kubernetes/kubernetes	#108886	[windows] - Update e2e tests that perform reboots to leverage node.BootId	49.0	https://github.com/kubernetes/kubernetes/issues/108886
kubernetes/kubernetes	#122202	LoadbalancerIPMode for kernelspace proxy mode	45.0	https://github.com/kubernetes/kubernetes/issues/122202
kubernetes/kubernetes	#101985	kubectl cp command fails when passing full Windows path such as c:\Temp\foobar.txt	42.0	https://github.com/kubernetes/kubernetes/issues/101985
kubernetes/kubernetes	#134513	Proposal: Expose memory usage metrics in kubelet /metrics/resource endpoint	45.0	https://github.com/kubernetes/kubernetes/issues/134513
kubernetes/kubernetes	#123823	Support for Topology Aware Routing in winkernel proxier	34.0	https://github.com/kubernetes/kubernetes/issues/123823
kubernetes/kubernetes	#123014	Establish contract between kube-proxy on Windows and CNIs for handling source VIPs in overlay networking mode	31.0	https://github.com/kubernetes/kubernetes/issues/123014
kubernetes/kubernetes	#141841	Dynamic Resource Allocation (DeviceClass/Device) is not supported on Windows nodes	34.0	https://github.com/kubernetes/kubernetes/issues/141841
kubernetes/community	#9043	<SIG/Windows>: Leadership Change	20.0	https://github.com/kubernetes/community/issues/9043
moby/buildkit	#4725	Error during build using corporate proxy	51.0	https://github.com/moby/buildkit/issues/4725
moby/buildkit	#4826	Error building windows container inside a windows container; failed to prepare: failed to create scratch layer: no parent layers present: unknown	48.0	https://github.com/moby/buildkit/issues/4826
moby/buildkit	#5668	Buildkit on Windows Server 2019 Unable to Reuse Namespaces / Endpoints	31.0	https://github.com/moby/buildkit/issues/5668
moby/buildkit	#4836	wcow: support OCI-worker for Windows	23.0	https://github.com/moby/buildkit/issues/4836
moby/buildkit	#4892	WCOW fails to load custom frontend	18.0	https://github.com/moby/buildkit/issues/4892
moby/buildkit	#6009	Publish Windows buildx images	14.0	https://github.com/moby/buildkit/issues/6009
Azure/AKS	#4068	[Feature] Memory-based pod eviction for Windows	94.0	https://github.com/Azure/AKS/issues/4068
Azure/AKS	#5263	[Feature] Pod Startup Throttling After Reboot / Thundering Herd Issue	90.0	https://github.com/Azure/AKS/issues/5263
